Welcome to The Office Catering Company.

There are many catering companies around but we pride ourselves not only on the imaginative food we supply but also the complete service package we can give our clients. Our food is all hand made from quality produce, sourced locally wherever possible. We don't believe in mass produced, processed food, so expect only the best.

We specialise in providing a full catering service to organisations large and small whether it is a sandwich platter for an office meeting, a finger buffet for a conference or a celebration buffet for a special event, we can design menus to fit every need and budget. We can provide working lunches for you and your colleagues or a daily service of sandwiches, tea or coffee.

For a chat about your requirements call 0800 232 1277 or complete an enquiry form.

Our service is built on flexibility, we aim to deliver all of your catering needs so that you don't have to think about any of the detail, simply confirm your order using our easy to use on-line system, or fax it over to our catering team and leave the rest to us!

No payment is required at this stage but you may have to register your details if you have not already done so.
